1. Do not unplug by pulling on the power cord. To unplug, grasp the plug, not the power cord.
2. Do not insert any foreign objects into the feeder, or attempt to open or repair the feeder.
3. Use the original power adapter and cable only.
4. When the food level indicator light is on, the feeder contains about 13 portions remaining, please refill soon.
5. The battery back-up uses three Alkaline "D" size, which last up to 10 days under normal use.
6. Feeder is suitable for indoor use only.
7. Device is to be used for the purpose of feeding a pet and not for an other uses.
8. Use only Dry Pet food kibbles.
9. DO NOT use wet, canned or moist food.
10. Feeder should be placed on a level surface.
11. To reduce the risk of injury, close supervision is necessary when an appliance is used by or near children.
12. Do not allow pets to chew on or swallow any parts. If you are concerned about the power cord, use a power cord conduit (a hard plastic protector) that can be purchased at any hardware store to protect the power cord.
13. Keep the electrical cord away from water.
14. Not Diswasher Safe.
15. Cleaning: unplug from electricity, clean with a mild soap cleaner, dry with a cotton cloth an air dry.

FAQ

1、What's the reason why the feeder can't be connected to the Internet?

Answer: Please try the following:

- 1) Check whether the machine is powered on. If not, make sure the machine is powered on. If yes, see step 2.
- 2) Check whether the network configuration is a 2.4G channel network or a 5G channel network. If it is a 5G channel network, you need to switch to the 2.4G channel network environment. Then long press the SET button for 6 seconds, when the green light flashes slowly, follow the prompts on the App, enter the correct account password and reconnect.
- 3) If the connection fails, you can use the device hotspot connection method. On the page where the App failed to connect, click the orange font "Reconnect to device hotspot connection mode" which is under "Reconnect", Before using the hotspot connection, press the RESET button for 2 seconds until the indicator light turns blue flashing state, then enter the device selection page, select the device to be connected, and follow the prompts.
- 4)If you still cannot connect to the network, please contact customer service: 1-833-Dogness (364-6377).

2、Why there is no food dispensed into the food bowl when the App sends a feeding command?

Answer: Please try the following:

- 1) The rotating shaft is rotating but the food can not be detected. We suggest that you to check whether the bin is empty or not.
- 2) It Maybe caused by network delay or disconnection. Repeated feeding is suggested to check if it is normal.
- 3) It is suggested to clean out the food outlet to avoid excessive accumulation.

Answer: First, make sure that the network connection is normal, and then check if someone else is

logging into your account. Otherwise, it is recommended that you uninstall the App and reinstall the App, and then try to login again. If your phone uses android system, you can also try the following: Your phone-- setting-- application management-- DOGNESS- -clear data-- clear cache, and then login.

4、I want to change the account number of the App, which is being used. What should I do?

Answer: Our App does not support direct transfer of the account. If you really need to change, please register a new account with a new email address and unbind the feeder under the original account. And then bind the feeder under the new account.

Remark: When binding or rebinding a new account , long press the RESET button for 6 seconds. When the green light flashes slowly, reconnect upon hearing the sound of "Di Di".
