FAQ

1. Why are the noises from the water pump louder than the previous version of the fountain?

Answer: 1): Probably the water line is too low, please add water.

- 2): Probably because hair is stuck in the pump paddle, please disassemble the pump and clean accordingly.
- 3): Operate the water pump without adding water.

2. How long should the smart fountain be cleaned?

Answer: It's suggested to clean once a week. No need to add cleansers, just use wipes and clean water directly.

3. Is it normal that the power adapter is heating and feel burn at hand after the smart fountain running on?

Answer: It's normal to have slight heating.

4. Is it safe to put the water pump running in the water for a long time? Does this operation consume the power?

Answer: The water pump adapter 5V safety voltage, which absolutely safe to human and pets.

5. What materials was the fountain main body, filter unit and pump making of? How long can it be used?

Answer: The water fountain, filter box, and water pump all use ABS materials, which meet the safety standards of China, the United States, Germany, Japan and other countries. It is suggested to change the filter unit 1-2 months.
