

# Dogness Rover Cam Feeder User Manual

F15

## BEFORE USING THIS PRODUCT, PLEASE READ THIS MANUAL

Thank you for purchasing DOGNESS smart products. For your safety and concern, please read this product manual carefully prior to use. Failure to follow and operate this product in accordance within the manual and issues that result in any personal injury, property or other losses, DOGNESS has no liability except as expressly provided by law.

## ABOUT THE PRODUCT MANUAL

The authorization, trademark, and font size of the manual belong to DOGNESS and other related parties. If the content of the manual is inconsistent with the actual product (including APP), the actual product (APP) shall prevail. DOGNESS reserves the right (including electronic version) to interpret and modify the manual within the scope permitted by law. If you have any objection to any content or terms of the manual, please submit a written objection to DOGNESS: within 7 days after purchasing the product. Otherwise you agree, understand and accept the entire contents within this user manual.

## AUTHORIZATION STATEMENT

The company respects and protects the personal rights of all users who use the service. In order to provide you with accurate and personalized services, this product will use and share your personal device operation rights in accordance with the authorized directions. This application will treat this information with a high degree of diligence and prudence. Except as otherwise provided in this authorization statement, this product will not disclose or provide this information to third parties without your prior permission.

Additional users authorized by you to access the product will have the usage rights of your device, including but not limited to: function, control, video recording, photography, microphones, listening, etc. The decision to authorize means that you are fully aware and understood the above terms. The company does not assume any form of responsibility for the loss of personal privacy, relationship disputes, property, credit, etc. as a result. Please use caution with the authorization function. The company has the final right to interpret the license terms, and the authority to terminate the service agreement with the authorized user(s) immediately.

## PRODUCT OVERVIEW

**Note:** The picture is for reference only, please refer to the real product.

Power Button: When connected to power, press the power button to ensure the feeder is turned on

## POWER SUPPLY

**SLEEP MODE:**  
When using battery power, after a short idle period, the feeder will enter low-power sleep mode to conserve energy. Functions of the feeder will be limited to the scheduled feeding plan and notifications. Full functions will be restored including the camera when the app is opened.

Power on the feeder by plugging the USB cord and adapter into a power outlet.  
press the power button to ensure the feeder is turned on.  
Make sure both your smartphone and the feeder are using the same 2.4Ghz Wi-Fi network.  
(not compatible with 5Ghz Wi-Fi).

To maintain a reliable network connection, please place the feeder within  
close proximity to the WiFi router.

9. This is not a toy, those who lack relevant experience and knowledge (including children) must use it under the supervision and guidance of a responsible adult.
10. Clean and maintain this product.

## FAQ

Q. Why is the indicator light on when i first use it?

A. Fill the bucket with dry food above the sensor window and press the reset button and the light will disappear.

Q. Why cant i connect the feeder to the internet?

A. The feeder is compatible with 2.4Ghz Wi-Fi networks only, if you have both 2.4Ghz and 5GHz Wi-Fi (also known as Dual-Band Wi-Fi), make sure your smartphone is connected to the 2.4Ghz Wi-Fi band. Then during the set up process within the App, enter your 2.4Ghz Wi-Fi name and password when prompted. Both your smartphone and the Feeder must be connected to 2.4Ghz Wi-Fi. If you're not sure what Wi-Fi band you have contact your internet provider for more information.

Q. I am connected to 2.4 Wi-Fi and i still can't connect?

A. Reset the feeder by pressing and holding the button on the side of the feeder for 6 seconds, when the green light starts to flash slowly, proceed to setting up the feeder within the App again.

Q. Is there another way to connect to the feeder?

A. Try using the device "hot spot" connection method. On the page where the App failed to connect, click the orange font "Reconnect to device hot spot connection mode" which is under "Reconnect". Before using the hot spot connection, press the RESET button for 2 seconds until the indicator light flashes blue, then enter the device selection page,select the device to be connected, and follow the prompts.

Q. Why wont the food dispense?

A. The food bucket may be empty or the Wi-Fi network is disconnected or delayed or it could be obstructed.

Q. Why is the video feed blank or nonexistent?

A. Check to ensure it's still connected to the Wi-Fi network or if the feeder has lost power. It might just need to be refreshed, you can refresh the video feed by opening and closing the feeder icon within the app.

Q. What can I do if my App account suddenly fails to login?

A. First, make sure that the network is normal and if you share the feeder with a friend check to see if they're logged into the account. Otherwise, it is recommended to reinstall the App again. Android users can clear the cache by going to settings in their smartphone and try again.

Q. I want to change my account number and information within the App, how do i do that?

A. The App does not support direct replacement of the account. It's suggested to set-up and register a new account using a different email address or phone number than previously used. Make sure to uninstall and reinstall the App.
